

FONTAINE TRAILER COMPANY

IMPORTANT SAFETY RECALL NOTICE

Dear Fontaine Dealer,

Fontaine has determined that a defect which relates to motor vehicle safety exists in certain Infinity flat bed forklift trailers manufactured between December 16, 2024, and January 27, 2025. Accordingly, a recall to address this issue is being initiated effective 8/25/2025.

Fontaine Commercial Trailer is recalling certain 2025 - 2026 Fontaine Forklift Trailers (Models: HCIFL12SAT and HCIFL82CTA) with the auto lift axle feature. The cables connecting the auto lift axle to the iABS 4S / 2M Controller (Wabco 400 500 430 0) are possibly not installed in correct ports (Port 1 and Port 2) and iABS programming was inverted (static axle and lift axle).

Owners will be notified by mail about the recall and will be instructed to bring the affected trailers into an approved repair facility. Fontaine will make arrangements to have the lift axle cables and ABS sensor connections confirmed. The process will take approximately 1 man-hour. If the trailer is in service, arrangements will be made to provide temporary rental equipment until the updates are completed. There is no cost to owners for this recall.

Please be reminded it is a violation of Federal law for you to sell or lease the trailers covered by this notification until this recall has been performed on these vehicles. Substantial civil penalties apply to violation of this law

Your assistance with this recall is appreciated. Should you have any questions or concerns, please contact your Sales representative or Fontaine Technical Services at 205-485-1304.

Sincerely,

Fontaine Trailer
