

MACK TRUCKS RECALL ALERT

Subject: Safety Recall SC0484 Trailer Lights Inoperative
Recall Number: SC0484
Date: September 23, 2025
Applicable Markets: U.S. Canada Mexico Export

Description

Certain Mack Pioneers (PR) and Mack Anthem (AN 4) may be equipped with a trailer body input output module, that controls lighting functions for the trailer being towed. These vehicles may contain a manufacturing defect. This defect may cause the module to have limited functionality, rendering the trailer lights inoperable and increasing the risk of a crash.

If a trailer being towed experiences a loss of trailer lighting functions, vehicles around the trailer may not observe the trailer reducing speed, stopping, or changing lanes, which could lead to an increased risk of a crash.

Model and Model Years Affected

- Certain MY 2025-2026 Pioneer (PR) vehicles manufactured from October 22, 2024, through September 5, 2025
- Certain MY 2026 Anthem AN (4) vehicles manufactured on August 20, 2025.

Vehicle Quantities

164 vehicles (156 US, 6 Canada, 2 Mexico and 0 Export)

Dealer Responsibilities

The National Traffic and Motor Vehicle Safety Act and Canadian Motor Vehicle Safety Act require dealers to ensure that all new and used vehicles are free of safety defects and comply with all relevant safety standards at the time of delivery to the consumer.

Dealers should make their personnel aware of the safety recall. In the event that a dealer has a vehicle included in the safety recall in their inventory to be sold, the condition must be corrected before releasing it to a customer.

Notification Release Schedule

- Vehicle list will be posted on the Trucks Dealer Portal 9/25/2025.
- Owner notification letters will be released on or before 11/17/2025.
- Repair instructions will be released once they are available.

Contact
