Date: November 12, 2025

Subject: N252528090 - Safety Recall
Melted or Leaking Fuel Heater

Models: 2022-2026 Chevrolet 6500 XD/7500 XD Low Cab Forward

General Motors is releasing Safety Recall N252528090 today.

What Should Dealers Do: Dealers should review IVH, or the Dealer Maxis reports for open VINs in their inventory. Dealers can view the attached bulletin, and it will also be displayed in Service Information tomorrow.

The Stock VIN list of vehicles in dealer inventory or in-transit is attached to this message. Note: this list is only accurate at the time of report creation and all VINs should be validated in IVH prior to repair.

For dealers with involved vehicles, a listing has been prepared and will be available through GM Global Connect Maxis Field Action Reports or GWM Field Action Batch Search Report. The Inventory tab of the dealer reports will contain VINs that apply to this field action. This information is intended to assist dealers with the **PROMPT COMPLETION** of these vehicles. The Customer In-Service tab will contain customer names and addresses from Motor Vehicle Registration Records. The use of such motor vehicle registration data for any purpose other than follow-up necessary to complete this field action may be a violation of law in several states.
