

New Safety Recall Advanced Communication – 88C

FCA US LLC (FCA US) has announced a safety recall on certain 2022 through 2024 Model Year (WS) Jeep® Wagoneer and Grand Wagoneer vehicles.

VINs identified as being involved in this campaign are currently live and searchable.
Stop sale is in effect for the above-identified vehicles.

Vehicles impacted by a stop sale are eligible for reimbursement allowance through the Recall Floorplan Reimbursement Policy (RFPRP), which can be requested upon recall claim submission.

IMPORTANT: Some of the involved vehicles may be in dealer new vehicle inventory. Federal law requires you to complete this recall service on these vehicles before retail delivery. Violation of this requirement by a dealer could result in a civil penalty of up to \$27,874 per vehicle. Involved vehicles can be determined by using the VIP inquiry process.

REASON FOR THIS SAFETY RECALL

Some of the above vehicles may have been built with a quarter window trim which may detach from the vehicle. The quarter window trim may not have been properly secured at the supplier. A quarter window trim which detaches may create a road hazard to operators and occupants of other vehicles, and can cause such vehicles to crash without prior warning.

SERVICE ACTION

FCA US will conduct a voluntary safety recall on all affected vehicles. The remedy is currently under development. Dealers will be notified of the launch of this safety recall by way of established communication methods.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries regarding involved vehicles.
