DCSnet Message
Urgent

Subject: **BMW Recall 25V-xxx: Threaded Joint Positive Supply Wire**

BMW AG has issued a Delivery Stop (effective September 12, 2025) on a small number of Model Year 2026 BMW vehicles that were produced between July 21, 2025, and July 23, 2025.

As of September 24, 2025, this Delivery Stop has been upgraded to a Safety Recall.

This safety recall involves the connection between the positive battery cable and the power distribution box. The connection may not have been performed to specifications and, over time, this could increase the risk of engine stalling without warning, which could increase the risk of a crash. Also, over time, this could increase the risk of smoldering and, in an extreme case, a thermal event.

Do not deliver to a customer, a New, Certified Pre-Owned or Used vehicle subject to a Delivery Stop, until the vehicle is repaired. Do not use or sell replacement equipment/parts subject to a Delivery Stop.

The Recall Notice and FAQ have been attached for further information.

The bulletin will be updated when additional information becomes available.

Sincerely,

Technical Service

SAFETY RECALL NOTICE

To: All Center Operators, Sales Managers, Service Managers, Parts Managers and Warranty Processors

RE: Recall 25V-xxx: Threaded Joint Positive Supply Wire – B61 16 25

BMW AG has issued a Delivery Stop (effective September 12, 2025) on a small number of Model Year 2026 BMW vehicles that were produced between July 21, 2025, and July 23, 2025.

As of September 24, 2025, this Delivery Stop has been upgraded to a Safety Recall.

Please be reminded that it is a violation of federal law (The Safety Act) for you to sell, lease or deliver any new motor vehicle covered by this notification until the recall repair has been performed. This means that Centers may not legally deliver new motor vehicles to consumers until they are fixed or use/sell replacement equipment/parts subject to this recall. Note also that substantial civil penalties apply to violations of the Safety Act.

Also, you should not sell, lease or deliver any Certified Pre-Owned or used vehicles subject to a safety recall until the repair is completed.

Please follow any special instructions that we provide to you for the return or disposition of recall parts.

We appreciate all your assistance with this Recall.

Q1. Which BMW models in the US are potentially affected by this Safety Recall?

Certain Model Year 2026 BMW 4 Series in the US are potentially affected.

Q2. What is the specific issue?

This safety recall involves the connection between the positive battery cable and the power distribution box. The connection may not have been performed to specifications and, over time, this could increase the risk of engine stalling without warning, which could increase the risk of a crash. Also, over time, this could increase the risk of smoldering and, in an extreme case, a thermal event.

Q3. Why are other models / vehicles not included in this Safety Recall?

The connection between the positive battery cable and the power distribution box was performed to specifications.

Q4. Can I continue to drive my vehicle?

Yes. However, when you are notified by BMW of this Safety Recall that a remedy is available, please contact an authorized BMW center to schedule an appointment as soon as possible. For the latest updates to this Safety Recall, please visit bmwusa.com/recall. **If you are not the only driver of this vehicle, please advise all other drivers of this important information.**

Q5. How did BMW become aware of the issue?

BMW became aware of the issue through its quality control procedures.

Q6. How will I be informed of this Safety Recall?

Owners of potentially affected vehicles will be notified via First Class mail advising them of this Safety Recall and to schedule an appointment with an authorized BMW center as soon as possible to have the remedy performed. To locate your nearest authorized BMW center, please visit bmwusa.com/dealer.

To ensure BMW has the most up-to-date contact and vehicle information, owners should register their vehicle at bmwusa.com/myBMW. Registration is free and will give them access to other information specific for their BMW vehicle. Alternatively, owners can visit bmwusa.com/recall and click on “**Manage recall notices and contact information**”.

Q7. How will my vehicle be remedied?

The connection between the positive battery cable and the power distribution box will be checked and, as necessary, parts will be replaced *for free* which should take about an hour.

Q8. Do I have to wait for BMW to contact me to have the remedy performed?

Yes. BMW is currently in the process of ensuring that the necessary tools, parts, and procedures are available prior to contacting you to schedule an appointment with an authorized BMW center. For the latest updates to this Safety Recall, please visit bmwusa.com/recall.

Q9. Should I park my vehicle outside?

The possibility of a thermal event is extremely rare.
