INTERIM NOTICE

ATTENTION: ALL DEALER PRINCIPALS

This is an interim notice as we work on preparing the remedy parts to support this Safety Recall Campaign.

Kia America, Inc., pursuant to the National Traffic and Motor Vehicle Safety Act, is conducting a Safety Recall Campaign on 2021-2023 MY Sorento LX vehicles, manufactured from September 10, 2020 through December 29, 2023 (Sorento S, EX, SX and X-line models are not affected).

Due to a suspected wire harness supplier quality issue, the connection between the blower motor resistor and connector can overheat when using the HVAC system on fan speed 3 while the ignition is on. In rare cases, this condition may lead to a fire, increasing the risk of injury. Vehicle owners may experience an inoperable blower motor, burning or melting smell, and/or smoke coming from the air vents.

When the remedy is available, Kia dealers will replace, as a set, both the blower motor resistor circuit harness with an improved one and the blower motor resistor with a new one.

Your Service Manager was sent a copy of the interim owner notification letter and a Q&A guide for recall questions both of which describe the issue and information on how to access the list of affected vehicles. Kia will start mailing interim notices to the affected vehicle owners beginning on **November 24, 2025**. A follow-up notice will be mailed to vehicle owners once the remedy becomes available.
