Dear Dealer:

This **Safety Recall Notice** is sent to you in accordance with the requirements of the United States National Traffic and Motor Vehicle Safety Act and The Canadian Motor Vehicle Safety Act and is important for your safety.

Thor Motor Coach (TMC) decided that a defect which relates to motor vehicle safety exists in certain models of the below listed motorhomes.

It has been discovered that on certain model years 2025-2026 Chateau, Coleman, Echelon, Eddie Bauer, Four Winds, Freedom Elite, Geneva, Pasadena, Quantum P-clamps were not installed on the generator fuel hose.

The required action is inspecting the generator exhaust for touching fuel hose and/or wire harness. Then install a heat sleeve and p-clamps to prevent contact. A fuel hose contacting the generator exhaust increases the risk of a fire, crash, and personal injury.

Dealers that have stock units impacted by this recall can access the full list of affected VINs sold to their dealership by accessing the "Service Campaign" portion of the TMC Advantage Web Portal. If any unit on this list has been retail sold you are asked to notify the retail owner as soon as possible of this recall because their vehicle was not registered at the time the retail notice was mailed. Please immediately register any retail sold units on this list. **As a reminder, you are required by law to complete this recall on any stock units in inventory prior to retail sale. Any vehicle lessor receiving this notice must forward a copy to the lessee within 10 days.**

If you have questions concerning this recall, please contact the **TMC Warranty/Service Department** by mail at TMC, P.O. Box 1486, Elkhart, IN 46515-1486, **or** by phone at (877) 500-1020.

We apologize for this inconvenience; however, we have taken this action in the interest of customer safety and continued satisfaction with our products.

Sincerely,

Thor Motor Coach
