Condition

Under certain circumstances the backup camera image in the subject vehicles may not be displayed or may freeze briefly after being displayed while reversing. If this occurs while the vehicle is being reversed, the vehicle may not meet a federal safety standard, and there can be an increased risk of a crash with a person behind the vehicle.

Remedy

Lexus dealers will update the software for the Panoramic View Monitor System's Parking Assist ECU, which will address this issue, **FREE OF CHARGE**.

Campaign Phase Interpretation

Campaigns may be launched in phases due to many factors, such as: the nature of the repair, parts availability, etc. It is important that each VIN is confirmed using TIS to determine if the vehicle is in the remedy or interim phase. Only perform the repair that is available for the specific VIN. *If a remedy repair is performed on an interim phase vehicle, the claim will be subject to debit.*

New Vehicles in Dealership Inventory

There are approximately 4,700 vehicles in new dealer inventory as of October 27, 2025.

Under Title 49, Section 30112 of the United States Code, a dealer cannot sell, offer for sale, or introduce or deliver for introduction in interstate commerce a new motor vehicle when it is aware that the vehicle does not comply with an applicable Federal Motor Vehicle Safety Standard or contains a defect related to motor vehicle safety. Further, 49 Code of Federal Regulations §577.13 requires us to provide the following advisory: It is a violation of Federal law for a dealer to deliver a new motor vehicle or any new or used item of motor vehicle equipment (including a tire) covered by this notification under a sale or lease until the defect or noncompliance is remedied.

Vehicle Safety Recall completion should always be verified through TIS. We request your assistance to ensure involved vehicles are identified and not delivered prior to performing the remedy.

NOTE:

- *New vehicles in dealer inventory subject to a Safety Recall must be remedied before delivery into commerce under a sale or lease. Dealer-to-dealer trades as well as vehicle sales between dealers should not be made until a vehicle is remedied.*
- Dealers can identify if any of their new and used inventory has any open campaigns in the Vehicle Inventory Summary available in Dealer Daily. The Vehicle Inventory Summary may take up to 4 hours to populate information for newly launched campaigns.

Frequently Asked Questions

Q1: *What is the condition?*

A1: Under certain circumstances the backup camera image in the subject vehicles may not be displayed or may freeze briefly after being displayed while reversing. If this occurs while the vehicle is being reversed, the vehicle may not meet a federal safety standard, and there can be an increased risk of a crash with a person behind the vehicle.

Q1a: *Is there anything I can do until the remedy is performed?*

A1a: Even if the rearview camera is operational, do not overly rely on the system. Always turn and check surroundings before proceeding.

- To avoid Image freeze: After Ignition is on, allow at least 3 seconds before shifting into reverse

- To avoid a black screen: Vehicle should not be turned on and off in less than 13 seconds; doing so may cause a black screen the next time vehicle ignition is on.

Q2: *What is Lexus going to do?*

A2: Lexus dealers will update the software for the Panoramic View Monitor System's Parking Assist ECU, which will address this issue, **FREE OF CHARGE.**

Q3: *Which and how many vehicles are covered by this Safety Recall?*

A3: There are approximately 486,900 vehicles covered by this Safety Recall.

A6: If you have additional questions or concerns, please contact the Lexus Brand Engagement Center at 1-800-255-3987 Monday through Friday, 8:00 am to 8:00 pm, Saturday 9:00 am to 7:00 pm Eastern Time.

Policies And Procedures

New Vehicles in Dealership Inventory - Reminder

Below is a reminder of the dealer's obligations pertaining to Safety Recalls if there are new vehicles in dealership inventory:

Under Title 49, Section 30112 of the United States Code, a dealer cannot sell, offer for sale, or introduce or deliver for introduction in interstate commerce a new motor vehicle when it is aware that the vehicle does not comply with an applicable Federal Motor Vehicle Safety Standard or contains a defect related to motor vehicle safety. Further, 49 Code of Federal Regulations §577.13 requires us to provide the following advisory: It is a violation of Federal law for a dealer to deliver a new motor vehicle or any new or used item of motor vehicle equipment (including a tire) covered by this notification under a sale or lease until the defect or noncompliance is remedied.

Vehicle Safety Recall completion should always be verified through TIS. We request your assistance to ensure involved vehicles are identified and not delivered prior to performing the remedy.

NOTE: Dealers can identify if any of their new and used inventory has any open campaigns in the Vehicle Inventory Summary available in Dealer Daily. The Vehicle Inventory Summary may take up to 4 hours to populate information for newly launched campaigns.

Pre-Owned Vehicles in Dealer Inventory

To ensure guest satisfaction, Lexus requests that dealers complete this Safety Recall on any used vehicles currently in dealer inventory that are covered by this Safety Recall prior to guest delivery.

NOTE: Dealers can identify if any of their new and used inventory has any open campaigns in the Vehicle Inventory Summary available in Dealer Daily. The Vehicle Inventory Summary may take up to 4 hours to populate information for newly launched campaigns.

Lexus Certified Used Vehicle

The LCCertified policy prohibits the certification of any vehicle with an outstanding Safety Recall, Special Service Campaign, or Limited Service Campaign. Thus, no affected units are to be designated, sold, or delivered as a LCCertified until all applicable Safety Recalls, Special Service Campaigns, and Limited Service Campaigns have been completed on that vehicle.

LCCS Service Loaners

Lexus requests that dealers remove all LCCS Service Loaner vehicles from service that are covered by a Safety Recall unless the defect has been remedied.

Claim Filing Accuracy and Correction Requests

It is the dealer's responsibility to file claims correctly for this Safety Recall. This claim filing information is used by Lexus for various government reporting activities; therefore, claim filing accuracy is crucial. If it has been identified that a claim has been filed using an incorrect Op Code or a claim has been filed for an incorrect VIN, refer to Warranty Procedure Bulletin [PRO17-03](#) to correct the claim.

Guest Reimbursement

Reimbursement consideration instructions will be included in the owner letter.
