

To: Remote Vans Dealers

Date: November 2025

Subject: Safety Recall Notice - Model Year 2025 Oasis and 2025 Aegis

NHTSA Recall 25V-747

Please be advised, Remote Vans, LLC has determined that a noncompliance exists in Model Year 2025 Oasis and Aegis vehicles and has submitted a Noncompliance Information Report to the National Highway Traffic Safety Administration (NHTSA).

What is the Issue: Model Year 2025 Oasis and Aegis motorhomes do not comply with the requirements of FMVSS 110. If the vehicle is carrying the maximum number of occupants (4), their weight may exceed the Gross Vehicle Weight Rating (GVWR) and overload the vehicle, increasing the risk of a crash. Remote Vans LLC is not aware of any injuries or property damage related to this issue.

What is the Remedy: The remedy will depend on the vehicle.

- For 2025 Oasis vans, remove the extended range fuel tank and install a standard fuel tank, reducing the Unloaded Vehicle Weight by approximately 174 pounds.
- For 2025 Aegis vans, remove the extended range fuel tank and install a standard fuel tank, as well as remove all skid plates and the OWL Vans Expedition Box, reducing the Unloaded Vehicle Weight by approximately 293 pounds.

A revised Occupant and Cargo Carrying Capacity label will be provided for each vehicle.

Owner Notification: Remote Vans plans to notify vehicle owners in November 2025. Repairs will be provided to the customer free of charge. Please submit reimbursements to Remote Vans by December 31st, 2025.

Note: It is a violation of Federal law for a dealer or distributor to deliver a new motor vehicle or any new or used item of motor vehicle equipment (including a tire) covered by this notification under a sale or lease until the defect or noncompliance is remedied.

Please contact Remote Vans at service@remotevans.com or 513-201-7553 with any questions.
