------------	---	----------------	--	---

From: *Product Safety & Certification Department*

Subject: *Non-Compliance Recall RVXX2509 Center Roof Marker Light Inoperative*

Description of Defect:

Certain Volvo New VNs may be equipped with roof marker lights with non-conforming sockets. This can result in the center marker lamp connection failing resulting in insufficient luminosity. Marker lamps not illuminating may reduce visibility and increase the risk of a crash.

Models/ Model Years Affected:

Certain New VN model vehicles manufactured from 01/08/2025, through 05/30/2025.

Vehicle Quantities:

1,730 (1,465 US, 265 Canada)

Dealer's Responsibility:

The National Traffic and Motor Vehicle Safety Act and Canadian Motor Vehicle Safety Act require dealers to ensure that all new and used vehicles are free of safety defects and comply with all relevant safety standards at the time of delivery to the consumer.

Dealers should make their personnel aware of the safety recall. In the event that a dealer has a vehicle included in the safety recall in their inventory to be sold, the condition must be corrected before releasing it to a customer.

Release Schedule:

- Vehicle list will be posted on the Trucks Dealer Portal 11/10/2025.
- Owner notification letters will be released on or before 1/2/2026.
- Repair instruction will be released once they are available.

If you have questions or concerns about this recall, contact the Regulatory Affairs Department at vtna.regulatoryaffairs@volvo.com.
