## **New Safety Recall Advanced Communication – D0C**

FCA US LLC (FCA US) has announced a safety recall on certain 2024 Model Year (GG) Dodge Hornet and 2024 Model Year (GC) Alfa Romeo Tonale vehicles.

### **REASON FOR THIS SAFETY RECALL**

Some of the above vehicles may have been built with a brake pedal assembly that may collapse while braking. A brake pedal arm that collapses during normal braking may prevent the driver from being able to activate the service brakes. The inability to activate the service brakes while driving can cause a vehicle crash without prior warning.

Should this happen, the Electronic Park Brake, located on the center console, can be pulled up and held while driving to slow the vehicle to a controlled stop. Additionally, the Automatic Emergency Braking system, unless deactivated, will intervene without further action from the driver when it detects a collision is imminent.

### **SERVICE ACTION**

FCA US will conduct a voluntary safety recall to reinforce the brake pedal arm by adding a bolt and nut. The remedy for this condition is not currently available. Dealers will be notified of the launch of this safety recall by way of established communication methods. This recall is estimated to launch in 4th Quarter of 2025.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries regarding involved vehicles.
