Re: Safety Defect Recall Notification 25V895

Dear

WHAT IS BEING RECALLED:

Coach and Equipment Mfg. Corp. has decided that a safety defect exists in certain Coach and Equipment Phoenix model buses built between January 1, 2024, and August 15, 2025, that were installed with a Roush CleanTech Gen 5 LPG fuel system and an aftermarket A/C compressor that repositioned the OEM alternator.

WHY IS IT BEING RECALLED:

Coach and Equipment has determined during the installation of the aftermarket air conditioning system that the repositioning of the OEM alternator may cause it to rub against the Roush front crossover fuel line. This could lead to failure of the front crossover fuel line which would result in a leak of liquid propane fuel, which would create a risk of fire. Coach and Equipment has **not** issued instructions to stop driving your vehicle under this safety recall. However, in the event that you detect a LPG fuel leak, please stop driving your vehicle, park it outdoors in a well-ventilated area, and contact Coach and Equipment immediately at (800)-724-8464 to make arrangements for an interim remedy.

WHAT COACH AND EQUIPMENT MFG. WILL DO:

Owners will be notified by mail about this recall. They will be instructed to inspect and repair / replace any found defects. Coach and Equipment will provide free of charge inspection and repair instructions including any materials needed to complete these activities. Labor costs will be reimbursed at a set amount of \$100 per bus.

If you had this corrective action performed before you received this letter, you may be eligible to receive reimbursement from Coach and Equipment Mfg. Corp. for the cost of obtaining a pre-notification remedy for the problem associated with this recall.

WHAT YOU AS THE (DEALER) SHOULD DO:

If any of the recall population are still on site, you must inspect them for proper clearance between the crossover fuel line and the OEM alternator. You must contact Coach and Equipment at (800)-724-8464 with the results of your inspections and for any needed replacement parts / repair kits.

Please be reminded that it is a violation of Federal law for you to sell or lease the vehicles covered by this notification until this recall has been carried out on these vehicles. Substantial civil penalties apply to violations of this law.

Your assistance with this recall is appreciated. Should you have any questions or concerns, please contact Coach and Equipment Mfg. Corp. at (800)-724-8464.

Sincerely,  
George D'Amato  
Recall Administrator
