******* Campaign Summary *******

Nissan is committed to the safety and security of our customers and passengers. Nissan has notified the National Highway Traffic Safety Administration (NHTSA) that it is conducting a Voluntary Safety Recall Campaign on certain model year 2026 Nissan Rogue vehicles identified in Service Comm and DBS National Service History.

Condition:

Certain MY2026 Rogue vehicles may have been equipped with an incorrect spare tire during the manufacturing process. On affected vehicles, the spare tire may not match the size listed on the vehicle's tire placard. This condition would not comply with FMVSS 110 S4.3(d).

Remedy:

Dealers will inspect both the spare tire size and the tire placard. If the spare tire matches the size listed on the tire placard, no further action will be required. If the spare tire does not match the size listed on the placard, the spare tire will be replaced.

******* What Dealers Should Do*******

1. Verify if vehicles are affected by this Voluntary Safety Recall Campaign using Service Comm or DBS National Service History Campaign I.D. **PD180**
2. Dealers should not sell, lease, trade, rent or loan any vehicles in dealer inventory subject to this recall campaign until after the vehicle has been remedied. See Policies and Procedures section for more information.
3. Dealers should use the appropriate campaign bulletin to remedy any vehicles subject to this campaign.
4. Once remedied, dealers should submit the claim using the claims coding provided and release the vehicle.
