

IMPORTANT SAFETY RECALL

NHTSA Recall No. 25T001

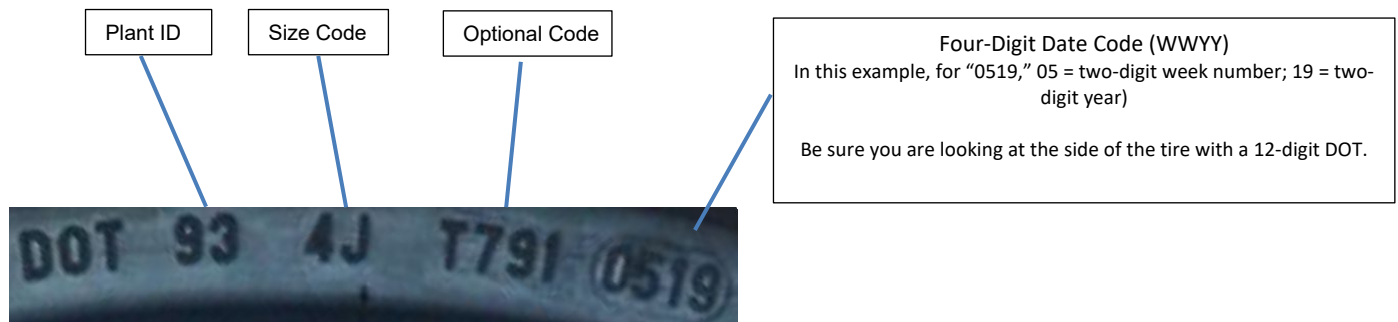

February 2025

Dear Pirelli Tire Customer:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Pirelli Tire LLC ("Pirelli") has determined that certain Cinturato P7 245/45R18 100Y XL tires identified below fail to conform to Federal Motor Vehicle Safety Standard (FMVSS) No. 139, *New pneumatic radial tires for light vehicles*. Pirelli is conducting a recall to replace affected tires. Our records indicate that you may own one or more these tires. Please review this letter carefully to determine whether your tires are affected and, if so, what actions to take.

Part Number (SKU)	Product	Description	Plant ID	Size Code	Optional Code	Date Code Range*	
						Begin	End
2479100	P7 Cinturato	245/45R18 100 Y	93	4J	T791	0417	0619

*Only tires in the listed date code ranges are being recalled.

The recalled tires were installed as original equipment on certain Mercedes-Benz E-Class passenger cars and also sold as replacement equipment by Pirelli Tire dealers.

The reason for this recall notice:

The subject tires were marked as having a maximum permissible inflation pressure of 340 kPa, although the tires were designed and engineered as having a maximum inflation pressure of 350 kPa for which the tires comply with regulatory requirements. Accordingly, these tires do not comply with FMVSS 139, S5.5(c), which requires that the tires be marked with the maximum permissible inflation pressure for this tire. As a consequence of this unintended reduction of the labelled maximum inflation pressure, the tires fall subject to a different strength test prescription under FMVSS 109/139, which these tires were not meant to satisfy. The tires meet all applicable minimum performance requirements and other labelling requirements for tires with a maximum permissible inflation pressure of 350 kPa.

If the tire is exposed to a deformation comparable to the test conditions applicable to the tire as erroneously labelled, the tire may experience a breakage at a breaking energy level lower than specified in the standard FMVSS 109/139. If, under the above circumstances, the tire structure is compromised and a sudden loss of air occurs, there may be an increased risk of a vehicle crash.

What Pirelli & your dealer will do:

Please contact your Pirelli authorized dealer as soon as possible to schedule an appointment to replace the tire; otherwise, please reference the **"If you need help"** section below. Replacement tires are currently available. In the event that your dealer does not have a replacement tire in stock, a tire may be ordered for you. The recalled tire will be replaced free of charge, including mounting and balancing, if returned on or before December 31, 2025.

Please take this letter to the dealer at the time of your appointment. This service should take approximately 15 to 20 minutes per tire. However, depending upon the dealer's work schedule and inventory of replacement tires, it may be necessary to make your vehicle available for a longer period.

This recall campaign will expire on December 31, 2025, so it is important that you act as soon as possible to determine whether your tire is covered by this recall campaign.

Federal regulations require that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within 10 days.

If you need help:

Please contact your authorized Pirelli dealer if you have any questions or encounter any difficulty regarding this recall. In the event your dealer is unable to remedy your vehicle or address your questions, please contact Pirelli at 1-800-622-2390 or consumer.affairs@pirelli.com (Monday through Friday 8:00 AM to 6:00 PM Eastern Time). Please have your recalled tire and invoice available.

If Pirelli fails or is unable to perform this remedy without charge within a reasonable time, you may contact the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue SE., Washington, D.C., 20590; or call the toll-free Vehicle Safety Hotline at 1-888-327-4236 (TTY: 1-800-424-9153); or go to <http://www.safercar.gov>.

If you previously paid to have the recall condition addressed, you may be eligible for reimbursement. Please contact Pirelli at 1-800-622-2390 for more information.

If you no longer own the recalled tire(s), please contact Pirelli at 1-800-622-2390 and provide any information you can furnish that will assist us in locating the new owner.

We apologize for any inconvenience this may cause you. However, we are taking this action in the interest of your safety and your continued satisfaction with your Pirelli tires. We appreciate your attention and cooperation in this important matter.

Sincerely,

Pirelli Tire LLC
