IMPORTANT SAFETY RECALL

NHTSA Recall No. 25T-003

Dear Valued Bridgestone Customer:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Bridgestone Americas Tire Operations, LLC (“BATO”) has decided that certain Bridgestone Blizzak 6 tires fail to conform to Federal Motor Vehicle Safety Standard No. 139, "New Pneumatic Radial Tires for Light Vehicles." Accordingly, BATO has initiated a safety recall of **Bridgestone Blizzak 6** tires in size **235/40R19** manufactured between June 2, 2024 – June 22, 2024 and bearing the tire identification number (“TIN”) 1VR100W122224, 1VR100W122324, or 1VR100W122424.

These tires were sold as replacement equipment only.

You are receiving this letter because BATO records indicate that you may have purchased tires that are covered by this safety recall.

REASON FOR THE RECALL

The subject Blizzak 6 tires do not bear the DOT certification symbol on the tire sidewalls and therefore do not comply with tire marking requirements in Federal Motor Vehicle Safety Standard (“FMVSS”) 139.

While the tires fully comply with the performance requirements of FMVSS 139, the Department of Transportation has found that tires missing the required DOT symbol may be used in inappropriate applications, increasing the risk of a crash.

TIRE INSPECTION AND REPLACEMENT PROGRAM

Consistent with BATO’s longstanding commitment to safety, customer satisfaction and service, BATO will replace tires subject to the recall that are confirmed to have the tire marking condition after inspection, with new tires, and mount and balance the replacement tires. **These services are provided at no charge to you** through November 12, 2025.

Replacement tires are currently available. Any tires replaced under this recall will be replaced with new, Bridgestone or Firestone tires. The remedy should take approximately one hour to complete. If Bridgestone or Firestone brand tires are unavailable, a suitable competitive product may be used as a replacement tire.

DESCRIPTION OF TIRES COVERED AND HOW TO IDENTIFY THEM

Tires have certain unique sidewall markings that will allow you to determine whether they are subject to this recall. Any tire that has **all four** markings described below is subject to this recall and may need to be replaced. Please examine the sidewalls of your tires to confirm the following information:
