Subaru Safety Recall WRB-25
NHTSA Recall ID 25V-033
February 2025

Dear Subaru Owner:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Subaru of America, Inc. (Subaru) has decided that a defect which relates to motor vehicle safety exists in certain 2025 model year Forester vehicles.

You received this notice because our records indicate that you currently own one of these vehicles.

DESCRIPTION OF THE DEFECT AND SAFETY RISK

Your vehicle may be equipped with 18-inch aluminum alloy wheels manufactured with an incorrectly specified lug seat surface, which could result in the wheel being improperly secured. An improperly secured wheel affects vehicle stability, increasing the risk of a crash.

WHAT SUBARU WILL DO

Subaru will inspect all four wheels on your vehicle and replace any wheel(s) found to have an incorrectly specified lug seat surface, free of charge.

WHAT YOU SHOULD DO

Please contact your Subaru retailer (dealer) immediately to schedule an appointment to have this safety recall completed at no cost to you.

HOW LONG WILL THE REPAIR TAKE?

The inspection of your vehicle's wheels for the defective condition will take approximately 30 minutes. However, it may be necessary to leave your vehicle for a longer period of time to allow your Subaru retailer flexibility in scheduling.

If any of the wheels are defective and need replacement, your retailer will order replacement wheel(s) for your vehicle. The replacement process can take up to two hours, depending on how many wheels need to be replaced.

If wheel replacement is necessary, your retailer will provide you with alternative transportation at no cost until your vehicle is ready.
