Dear Audi Owner,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Audi has decided that certain 2024-2025 model year Audi vehicles fail to conform to Federal Motor Vehicle Safety Standard (FMVSS) No. 111, *Rear Visibility*. Our records show that you are the owner of a vehicle affected by this action.

What is the issue?

An error may occur during camera control unit startup and, as a result, the vehicle may not display a rearview camera image. This is non-compliant with Federal Motor Vehicle Safety Standard (FMVSS) No. 111, *Rear Visibility*. The acoustic and visual warning (bar display) from the parking assistance system will still function. A rearview camera image that is not available when reversing may impair the driver's ability to see areas to the rear of the vehicle. This can increase the risk of a crash.

What will we do?

To correct this noncompliance, your authorized Audi dealer will update the camera control unit software. This work will take about an hour to complete and will be performed for you free of charge. Please keep in mind that your dealer may need additional time for the preparation of the work, as well as to accommodate their daily workshop schedule.

What should you do?

Please contact your authorized Audi dealer without delay to schedule this recall work. For your convenience, you can also visit www.audiusa.com and click on the "Find a Dealer" link to locate a dealer near you and schedule this service.

Precautions you should take:

If the recall condition is present in the vehicle, the driver will notice that there is no image on the screen after engaging the Reverse gear or pressing the parking assistance button. Should this occur, owners are advised to use extra caution when reversing, and to contact an authorized dealer.
