IMPORTANT SAFETY RECALL

Rearview Camera Visibility

Dear [Name],

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

FCA US LLC has decided that certain [2022 model year (WL) Jeep Grand Cherokee and 2021-2022 model year (WL) Jeep Grand Cherokee L] vehicles fail to conform to Federal Motor Vehicle Safety Standard (FMVSS) No. 111 - Rear visibility.

RECALL DESCRIPTION

The 10.1" Disassociated Center Stack Display (DCSD) on your vehicle ^[1] may contain a transistor that may overheat and prevent the rearview image from displaying. The vehicle operator may notice that the rearview image is not displayed if attempting to reference the image while backing. **If this warning is not heeded, backing up without verifying it is safe to do so could lead to an increased risk of a crash or injury to people outside the vehicle.**

The condition described above does not comply with Federal Motor Vehicle Safety Standard (FMVSS) No. 571.111 S6.2.6 requires that "The rear visibility system default to the rearview image being visible and meet the requirements of FMVSS No. 571.111 S6.2.1 (field of view) and S6.2.2 (image size) at the beginning of each backing event, regardless of any modifications to the field of view that the driver had previously selected." Suspect vehicles may not display the rearview image during a backing event.

YOUR VEHICLE HAS ALREADY BEEN REMEDIED

According to our service records, the 10.1" DCSD has already been replaced on your vehicle. Therefore, your vehicle has been remedied.

This notification is provided for your records only. There is nothing more that you need to do.
