Dear Valued Customer,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

The Shyft Group, Inc. has decided that certain 2025 model year Aeromaster step van vehicles that were built by its Utilimaster brand fail to conform to Federal Motor Vehicle Safety Standard No. 208, Occupant Protection.

Noncompliance:

The rear occupant seats are not equipped with the required seat belt.

There may be an increased risk of injury to occupants sitting in a designated seating position without a seat belt during a crash.

There is no warning for a missing seat belt.

Corrective Action:

Seat belts will be supplied, and installed, free of charge.

Labor Time:

Installation of the seat belts may take up to 2 hours. However, the service provider may need the vehicle longer due to scheduling.

What You Should Do:

Call Utilimaster at 1-800-237-7806 or email your company name, shipping address and the VIN of the affected unit(s) to FVSWarranty@utilimaster.com to coordinate having our technician(s) complete the work.

Leased Vehicles:

The lessor must notify the lessee by first class mail within ten (10) days from receipt of their owner notification letter from the manufacturer; both for the initial notification and all subsequent notifications.

If you had this repair performed before you received this letter, you may be eligible to receive reimbursement for the cost of obtaining a pre-notification remedy of the problem associated with this recall. For more information contact Utilimaster at 1-800-237-7806.
