

## IMPORTANT SAFETY RECALL

**2024-2025MY MX-5 Miata - Traction/Stability Light May Fail to Illuminate / FMVSS 126 Non-Compliance and Emission Recall 7425E - NHTSA Campaign Number 25V-336**

July 2025

**This notice applies to your vehicle: VIN \_\_\_\_\_**

Dear Mazda Owner:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Mazda Motor Corporation has decided that certain 2024-2025MY MX-5 Miata vehicles equipped with suspected Dynamic Stability Control (DSC) units and produced from December 19, 2023 through February 28, 2025, fail to conform to Federal Motor Vehicle Safety Standard No. 126, "Electronic stability control systems for light vehicles". If you received this notice, your vehicle is included in this recall.

### **What is the problem?**

On the subject vehicles, the Traction Control System (TCS)/Dynamic Stability Control (DSC) indicator light may not illuminate as intended due to a software diagnostic programming error in the DSC unit. This matter constitutes a non-compliance with FMVSS 126. In this condition, potential sudden steering maneuvers may result in understeering or oversteering that the system would normally monitor and correct. However, the TCS/DSC function may not behave as expected and may fail to illuminate the TCS/DSC indicator light. As a result, the driver may be unaware of the malfunction, increasing the risk of a crash or injury.

### **What will Mazda do?**

Your Mazda dealer will replace the DSC unit with a modified one that includes the improved software. The repair will be performed at no cost to you.

### **How long will the repair take?**

The repair time will take approximately one and a half hours to complete this recall campaign; however, your Mazda dealer can provide you with a better estimate as they may need your vehicle for a longer period of time due to service facility capacity. Mazda will provide alternate transportation, if needed, when your vehicle is at an authorized Mazda dealership for a recall repair. Please schedule an appointment with an authorized Mazda dealer so they can discuss and accommodate your needs.

### **What should you do?**

We encourage you to contact any authorized Mazda dealer to schedule an appointment to have your Mazda vehicle repaired as soon as possible. You do not need to bring this notice to the dealer, but it may assist in the check-in process.

**Emission Law Information:** To ensure your full protection under the emission warranty made applicable to your vehicle by State or Federal Law, it is recommended you have your vehicle or engine serviced as soon as possible. Failure to do so could be determined as lack of proper maintenance of your vehicle.

Also, your vehicle may fail a state or local emission inspection if this recall is not completed.

**Important notice to owners registering vehicles in California and Massachusetts:** California Department of Motor Vehicles and the Commonwealth of Massachusetts, in conjunction with the California Air Resources Board and the Environmental Protection Agency for the State of Massachusetts, have implemented the Registration Renewal/Recall Tie-In Program, which requires the completion of Emission Recalls prior to registration renewal. Mazda dealers will provide a Vehicle Emission Recall - Proof of Correction Certificate upon completion of the recall. Be sure to keep the proof of correction certificate provided by the Mazda Dealer until needed for the registration renewal process.
