NHTSA Recall No: 25V-359

Dear Tesla Owner,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Tesla, Inc. has decided that a defect, which relates to motor vehicle safety, may exist in certain model year 2026 Model Y vehicles manufactured at the Fremont Factory between April 15, 2025, to April 20, 2025. Our records indicate that you are the owner of a vehicle affected by this action.

REASON FOR THIS RECALL

On affected vehicles, one or both windshield washer nozzles may be blocked due to a defect in a washer hose connector. A blocked washer nozzle may prevent the windshield from being cleaned, decreasing the driver's visibility and increasing the risk of a crash.

WHAT TESLA WILL DO

At no charge to the customer, Tesla will inspect the wiper arm washer hose elbow connectors on your vehicle and, if necessary, replace the defective component with a wiper arm elbow connector that does not contain the defect.

WHAT YOU SHOULD DO

Please schedule a service appointment through your Tesla mobile app. Alternatively, if you wish to contact your nearest Tesla Service Center or require technical assistance, please visit www.tesla.com/findus or call 1-877-79-TESLA (1-877-798-3752). For awareness, the repair will take approximately 10 minutes to complete.

If you have already had this repair completed on your vehicle, no further action is required. To confirm whether the repair was completed on your vehicle, use our online VIN look-up tool at <https://www.Tesla.com/Vin-Recall-Search>.

Federal law requires any lessor who receives a notification of a determination of a noncompliance pertaining to any leased motor vehicle to send the notice to the lessee within 10 days.

If you no longer own the vehicle, update vehicle ownership in your Tesla Account. For more details on adding or removing vehicles from your Tesla Account, visit www.tesla.com/support/account-support#add-remove-products.

Thank you for being a Tesla customer. We are committed to ensuring that your vehicle provides the highest possible level of safety.
