

**IMPORTANT SAFETY RECALL SC0481
NHTSA RECALL # 25V427**

This Notice applies to your vehicle, see enclosed "Notice of Vehicle Recall"

DEAR MACK TRUCK OWNER:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Mack Trucks, Inc. has decided that certain 2024 through 2026 Mack MD (Electric) model vehicles manufactured June 22, 2023, through February 17, 2025 fail to conform to Federal Motor Vehicle Safety Standard No. 124, "Accelerator Control Systems."

SAFETY DEFECT: In the event of a Vehicle Controller Area Network (CAN) failure, the throttle signal from the electro mobility control unit will retain the last known throttle setting and will not return idle as intended (except during service brake application).

SAFETY RISK: An engine that does not return to idle quickly enough can cause a loss of vehicle control, increasing the risk of a crash.

PRECAUTIONS YOU CAN TAKE: There are no precautions you can take other than having your vehicle repaired by a Mack service center. The electro mobility control unit will be reprogrammed, with software which makes the vehicle compliant with FMVSS 124. Recall repairs will be performed at no cost to you.

TIME REQUIRED FOR THE REPAIR: The time required to repair your vehicle is approximately .5 hours.

WHAT YOU SHOULD DO: You should contact the nearest Mack Parts and Service Center and make an appointment. You can locate the closest Mack Parts and Service Center by going online to <http://www.macktrucks.com/> and selecting "Dealer & Service Locations" or by calling our toll-free number: 1-800-866-1177.
