IMPORTANT SAFETY RECALL

This notice applies to your vehicle, 

NHTSA Recall No. 25V-491

September 24, 2025

Dear Grech RV Owner,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Grech Motors Inc. d/b/a Grech RV (“Grech RV”) has decided that a defect which relates to motor vehicle safety may exist in certain Model Year 2020-2025 Strada, Model Year 2022-2023 and Model Year 2025 Terreno and Model Year 2021-2025 Turismo recreational vehicles installed with F65 Eagle awnings manufactured by Fiamma, Inc.

What is the issue?

These awnings may deploy without any input from the you and/or any occupants or passengers in your vehicle. If the awning deploys unexpectedly during operation without input from you or any of your passengers, the deployed awning could distract you or temporarily make your Grech RV vehicle more difficult to operate. Additionally, an awning that deploys without input from a vehicle occupant could strike another road user or otherwise create a road hazard. These events could increase the risk of crash or injury.

What do you need to do?

Grech RV is committed to your safety and has initiated a safety recall to address this issue. Our records indicate that you own a Grech RV recreational vehicle with a potentially affected awning.

To determine whether your recreational vehicle is part of the recall, please contact Grech RV to schedule an appointment. **You can reach Grech RV directly by email at Recall@GrechRV.com or by telephone at (855) 994-7324.** Please contact Grech RV even if you already have presented your vehicle to an authorized Grech RV dealership.

What will Grech RV do?

The Fiamma awnings used on the subject Grech RV recreational vehicles were built with one of two motor designs. After inspection, vehicles with the affected design will be fitted with a lock plate that stops torque from being applied to the winch assembly and internal gear set. Additionally, Grech RV will replace any winch assemblies damaged through over-torquing. All of this will be done without charge to you. Parts are available now and will be made available to authorized service locations upon scheduling through Grech RV. Grech RV estimates that an initial inspection of your awning motor will take 30 minutes or less and, if your service partner determines that your vehicle was built with an affected awning, fitting of the lock plate will take 60 minutes or less.

If you no longer own this recreational vehicle, please inform us by email at Recall@GrechRV.com or by telephone at (855) 994-7324 so we can update our records and inform the current owner of this important safety recall. Federal regulation requires any vehicle lessor receiving this recall notice to forward a copy of the notice to the lessee within ten days.

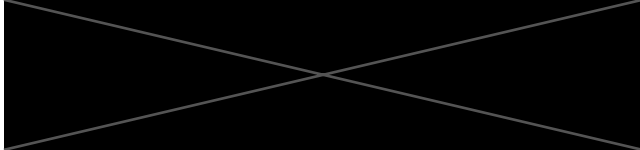

If Grech RV fails or is unable to remedy your recreational vehicle without charge within a reasonable time, you may wish to inform the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue, SE, Washington, DC 20590, or call the toll-free hotline at 1-888-327-4236 (TTY: 1-800-424-9153); or contact NHTSA at <http://www.safercar.gov>.)

We apologize for any inconvenience this may cause and we are dedicated to resolving this issue swiftly and to your complete satisfaction.

Thank you for your understanding and cooperation.
