QR Code

Get access to recall notifications, locate your nearest dealer, and more through this website or Mopar Owner's Companion App. You will be asked to provide your Vehicle Identification Number (VIN) to protect and verify your identity. The last eight characters of your VIN are provided above.

DEALERSHIP INSTRUCTIONS

Please reference Safety Recall 79C.

IMPORTANT SAFETY RECALL

Instrument Panel Cluster

Dear [Name],

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

FCA US LLC has decided that certain [2026 model year (DJ) Ram 2500 Pickup, (D2) Ram 3500 Pickup, and (DD) Ram 3500 Cab Chassis] vehicles fail to comply with Federal Motor Vehicle Safety Standard (FMVSS) No. 101 - Controls and Displays.

It is extremely important to take steps now to repair your vehicle to ensure the safety of you and your passengers.

WHY DOES MY VEHICLE NEED REPAIRS?

Your vehicle ^[1] may have been built with the incorrect 3.5 inch Instrument Panel Cluster (IPC) which displays the ISO symbol brake system warning light instead of "BRAKE" light. **Vehicles built with IPCs that display the incorrect brake system warning light may fail to alert the driver of critical safety information, which can cause a vehicle crash without prior warning.**

The condition above fails to comply with the requirements of FMVSS No. 101 Controls and Displays, Section 5, requires that "Each [...] vehicle [...] fitted with a control, a telltale or an indicator listed in Table 1 or Table 2 must meet the requirements of this standard for the location, identification, color, and illumination [...]." Table 1 requires that for brake system malfunction a telltale with the word "Brake" must be illuminated in red. Vehicles built with the incorrect IPC illuminates the ISO symbol brake system warning light and not the word "Brake."

HOW DO I RESOLVE THIS IMPORTANT SAFETY ISSUE?

FCA US LLC will repair your vehicle ^[2] free of charge (parts and labor). To do this, your dealer will replace the IPC. **The estimated repair time is 2 days** for the new IPC to be programmed with the current mileage and delivered to the dealership. The vehicle must remain parked at the dealership during that time. Ask your dealer for alternate transportation options while your vehicle is in service. Your time is important to us, so we recommend that you schedule a service appointment to minimize your inconvenience. Please bring this letter with you to your dealership.

**TO SCHEDULE YOUR FREE REPAIR,
CALL YOUR CHRYSLER, JEEP®, DODGE OR RAM DEALER TODAY**

WHAT IF I ALREADY PAID TO HAVE THIS REPAIR COMPLETED?

If you have already experienced this specific condition and have paid to have it repaired, you may visit www.fcarecallreimbursement.com to submit your reimbursement request online. ^[3] Once we receive and verify the required documents, reimbursement will be sent to you within 60 days. If you have had previous repairs performed and/or already received reimbursement, you may still need to have the recall repair performed.

We apologize for any inconvenience, but are sincerely concerned about your safety. Thank you for your attention to this important matter.
