IMPORTANT SAFETY RECALL NOTICE

NHTSA Recall 25V532

This notice applies to your vehicle: SCFUMCEV0SGJ60340

Dear _____,

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Safety Recall Actions RA-06-2074 – Vanquish Software Updates

REASON FOR THIS RECALL ACTION

Aston Martin has determined that a defect which relates to motor vehicle safety may exist for certain 2025 Vanquish vehicles that were manufactured from 27 December 2023 and 26 June 2025.

The vacuum pump may not generate vacuum. This can reduce brake assistance and cause the brake pedal to feel very hard. Reduced pedal travel may result in increased stopping distances. When the brakes engage, the pedal may pulse – this is the ABS providing pressure to compensate for reduced vacuum and is normal operation by design.

On affected vehicles, loss of power braking assist and reduced braking performance can increase the risk of a crash.

On the affected vehicles it is necessary to update the ESP software.

The models affected are:

- 25MY Vanquish

WHAT WE WILL DO

Aston Martin will update the software for your vehicle to the latest levels.

This action will be done at no cost to yourself.

WHAT YOU SHOULD DO
