Dear Valued Fleetwood Customer:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

REV Recreation Group Inc. has decided that a safety defect relating to motor vehicle safety exists on products within model years 2025-2026 Fleetwood Palisade brand Class A diesel motorhomes.

**Fleetwood Products**

Model Year(s) 2025-2026 Palisade

**Manufactured date range**

April 26, 2024 – June 27, 2025

***WHAT IS THE PROBLEM?***

On American Coach motorhomes affected by this recall campaign, a 35-amp fuse for the waste tank macerator has been determined to be defective and can deform due to heat resulting from poor electrical connection in the fuse block terminals. Through the investigation of the deformed fuse, it was also determined that your Palisade battery control center area fuse blocks, that contain waste system and other fuses may not match the fuse location diagram key. A melted fuse housing increases the risk of injury or fire.

**Identify any warning which can precede or occur:**

Note: No specific warnings. A visual inspection may display the fuse and or fuse holder to be deformed or melted.

***WHAT SHOULD YOU DO?***

Please make certain your motorhome is immediately inspected and repaired by contacting an **authorized REV Recreation Group servicing dealer**.

For assistance locating an **authorized REV Recreation Group servicing dealer**, please call REV Recreation Group Owner Relations toll-free at: **(800) 322-8216**

***WHAT WILL REV RECREATION GROUP DO?***

With your continued satisfaction in mind, it is our intention to have these repairs made at your convenience with as little disruption as possible. Effective immediately, REV RV dealers have been supplied with all the information needed to enable them to inspect and perform the remedy which includes a parts kit containing an inline fuse holder to relocate the existing 35 amp circuit for American Coach motorhomes. In addition, for

Palisade motorhomes, your dealer will compare the battery control center area fuse locations to the diagram key and correct the fuse location layout along with replacing the fuse location diagram key with a new one.

The repair should take approximately 1 hour to complete; however, because of service scheduling times, your dealer may need the vehicle for a longer period of time. **This service will be performed for you free of charge.**

When you deliver your motorhome for repairs, your dealer will complete a **Repair Order**. Upon completion of the repair, please sign the **Repair Order** and fill out the enclosed self-addressed **Vehicle/Owner Information Update Card** with the servicing dealer information and return it to REV Recreation Group-

If you have changed your address or sold the motorhome, please take a moment to provide the name and address of the person or dealership you sold it to on the enclosed **Vehicle/Owner Information Update Card** and return it to REV Recreation Group. This will allow us to update our records and if necessary, notify the new owner using the information you provide.

Alternately, you may scan the QR code at right, or navigate to the following URL to access the Fleetwood RV owners' web page and update any pertinent mailing information:
