IMPORTANT SAFETY RECALL

NHTSA Recall Number: 25V571
Orange EV Recall Number: 2025-SRC-06

Dear «Customer_Name»

This notice applies to your vehicle: «Truck_VIN»

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Orange EV (OEV) has decided that a defect, which relates to motor vehicle safety, exists in certain 2024 - 2025 HUSK-e Tandem Terminal Trucks. Our records indicate that you are the current owner of a vehicle affected by this action.

What is the Condition?

Due to a vehicle design issue, the driveshaft on the subject vehicles may make contact with other vehicle components. If this occurs, it can damage those components and can impact the vehicle's service and emergency braking system, both of which can increase the risk of a crash.

What will Orange EV do?

Orange EV will inspect affected trucks for signs of driveshaft contact and proper walking beam alignment. For trucks that pass inspection, OEV will replace the driveshaft, brake chamber, and suspension components, as necessary, **FREE OF CHARGE**. For Trucks that don't pass inspection, OEV will coordinate to have your truck transported to the manufacturing facility for driveshaft replacement and further axle alignment or replacement, **FREE OF CHARGE**. **The repair is expected to take between 1 and 8 hours, depending on the extent of the repairs.**

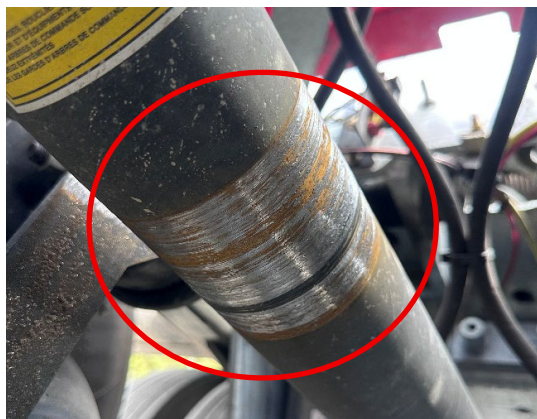

What should you do?

Please contact your Regional Service Supervisor to schedule your service. Until then, please verify that the walking beam suspension trunnion shear nuts are still fastened and inspect the driveshaft daily for signs of contact.

CHECK THE TRUNNION SHEAR NUTS AND INSPECT THE DRIVE SHAFT DAILY. IF EITHER NUTS ARE MISSING OR IF ANY DRIVESHAFT RUBBING IS OBSERVED, STOP USING THE TRUCK AND CONTACT YOUR REGIONAL SERVICE SUPERVISOR!

What if you are not the owner or operator of this vehicle?

If you are a vehicle lessor, Federal Law requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.

If you know the current owner or operator, please forward this letter to them.

If you would like to update your vehicle ownership or contact information, please call the Orange EV customer service line at 1-866-688-5223.

If you believe that Orange EV has failed or is unable to remedy the defect within a reasonable time or without charge, you may submit a complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue S.E., Washington, D.C. 20590, or call the toll free Vehicle Safety Hot Line at 1-888-327-4236 (TTY: 1-800-424-9153), or go to <http://www.safercar.gov>.

If you have any questions, please contact your Regional Service Supervisor or call the Orange EV customer service line at 1-866-688-5223.

We are committed to providing the highest-quality and best-value trucks. We sincerely regret any inconvenience this condition may have caused you.

Thank you for choosing Orange EV.

Sincerely,

Orange EV
