

IMPORTANT SAFETY RECALL

January 2026

This notice applies to your vehicle, VIN: _____

Dear General Motors Customer:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

General Motors has decided that a defect, which relates to motor vehicle safety, exists in certain 2015-2018 Chevrolet City Express vehicles. As a result, GM is conducting a safety recall. We apologize for this inconvenience. However, we are concerned about your safety and continued satisfaction with our products.

IMPORTANT

- Your vehicle is involved in GM recall N252531230.
- Schedule an appointment with your GM dealer.
- This service will be performed for you at **no charge**.

Why is your vehicle being recalled?

The Fuel Tank Temperature (FTT) sensor harness may have been routed incorrectly, causing contact with the fuel pump motor spade terminal connector. Over time, this contact may wear away the protective coating and cause an electrical short, resulting in a blown fuel pump fuse. A blown fuel pump fuse can interrupt fuel delivery to the engine, causing it to stall and prevent the vehicle from restarting, increasing the risk of a crash.

What will we do?

Your GM dealer will inspect the FTT sensor harness internal to the fuel pump assembly for the presence of abnormal wear and confirm if a Diagnostic Trouble Code (DTC) is stored. If no abnormal wear is detected on the FTT sensor harness, your dealer will wrap the harness with protective tubing and reroute the harness to ensure there is no contact with the fuel pump connector, or if specific wear is detected on the FTT sensor, your dealer will be instructed to replace the fuel level sender and FTT sensor harness, free of charge. Because of service scheduling requirements, it is likely that your dealer will need your vehicle longer than the actual inspection and service correction time of approximately 1 ½ hours.

What should you do?

You should contact your GM dealer to arrange a service appointment as soon as possible.

Did you already pay for this repair?

Even though you may have previously had repairs for this condition, you will still need to take your vehicle to your dealer for additional repairs. If you have already paid for repairs for the recall condition, **and those repairs were completed prior to this mailing**, please complete the enclosed reimbursement form and present it to your dealer with all required documents. Working with your dealer will expedite your request, however, if this is not convenient, you may mail the completed reimbursement form and all required documents to Reimbursement Department, PO Box 33170, Detroit, MI 48232-5170.

Do you have questions?

You may schedule your vehicle for repair using the QR code below. For more information about your vehicle, or if you have questions or concerns that your dealer is unable to resolve, please visit gm.com/service. You can also use your preferred voice assistant (for example, "Please go to GM.com"), or call the Buick, Chevrolet or GMC Customer Assistance Center at 1-866-467-9700. For Cadillac, please call 1-800-333-4223.

For the hearing or speech impaired, please contact our Customer Assistance Center using the Telecommunication Relay Service by dialing 711 then providing the appropriate Customer Assistance Center number for your vehicle.

Safety Recall

N252531230 Fuel Tank Temperature Harness May Be Incorrectly Routed

If your dealer fails or is unable to remedy this defect without charge, or within a reasonable amount of time, you may submit a written complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue, SE., Washington, DC 20590, or call the toll-free Vehicle Safety Hotline at 1.888.327.4236 (TTY 1.800.424.9153), or go to <http://www.nhtsa.gov>. The National Highway Traffic Safety Administration Campaign ID Number for this recall is 25V676.

Federal regulation requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.
