This notice applies to your vehicle, &lt;VIN&gt;

NHTSA Recall No: 25V699

Dear Tesla Owner,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Tesla, Inc. has decided that certain Model Year 2024, 2025 and 2026 Cybertruck vehicles fail to conform to Federal Motor Vehicle Safety Standard No. 108, Lamps, reflective devices, and associated equipment. Our records show that you are the owner of a vehicle affected by this action.

**REASON FOR THIS RECALL**

The vehicle controller software may inadvertently command the front parking lamp to exceed the maximum permissible photometric intensity prescribed in FMVSS 108, S7.8.13. Parking lamps that are too bright may distract or reduce the vision of other drivers and increase the risk of a crash.

**WHAT TESLA WILL DO**

At no cost to customers, Tesla deployed an over-the-air (OTA) software remedy that corrects the parking lamp output to comply with FMVSS 108 photometry requirements.

**WHAT YOU SHOULD DO**

Please check that your vehicle is running software version 2025.38.3 or a later release. You can check the software version running on your vehicle by tapping 'Controls' then 'Software' on your touchscreen. If your vehicle is running software version 2025.38.3 or a later release, then there is no further action that you need to take, and you may disregard this notice. If your vehicle is not running one of these software versions, then please accept the latest pending software update for installation by tapping the yellow clock icon at the top of the vehicle touchscreen and following the prompts. For awareness, software updates typically take 20 to 60 minutes to complete. See [www.tesla.com/support/software-updates](http://www.tesla.com/support/software-updates) for additional details on Tesla vehicle software updates.

If you believe that Tesla has failed or is unable to remedy this defect without charge or within a reasonable time, you may submit a complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue SE, Washington, DC 20590, by calling 1-888-327-4236 (TTY: 1-800-424-9153), or by visiting [www.safercar.gov](http://www.safercar.gov).

Federal law requires any lessor who receives a notification of a determination of a noncompliance pertaining to any leased motor vehicle to send the notice to the lessee within 10 days.

If you no longer own the vehicle, update vehicle ownership in your Tesla Account. For more details on adding or removing vehicles from your Tesla Account, visit [www.tesla.com/support/account-support#add-remove-products](http://www.tesla.com/support/account-support#add-remove-products). If you have any questions or need assistance installing the software update, please contact Tesla online by visiting [www.tesla.com/support/contact](http://www.tesla.com/support/contact) or by calling 1-877-79-TESLA (1-877-798-3752).

Thank you for being a Tesla customer. We are committed to ensuring that your vehicle provides the highest possible level of safety.
