## IMPORTANT SAFETY RECALL

This notice applies to your vehicle: [REDACTED]

December 2025

Dear [REDACTED],

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Honda has decided that certain 2025 CB1000 Hornet motorcycles fail to conform to Federal Motor Vehicle Safety Standard No. 123, "Motorcycle controls and displays".

**Why my vehicle is under recall:** The gear change pedal pivot bolt can loosen and fall off while riding, resulting in the inability to shift gears. If the rider is unable to shift gears while riding, the risk of a crash or injury is increased.

**What Honda will do:** Your Honda Powersports dealer will replace the gear change pedal pivot bolt, for **FREE**. Honda estimates that the repair will take approximately 30 minutes to complete. However, your dealer can provide you with a better estimate of the overall time for this service visit, as it may be necessary to make your motorcycle available for a longer period of time.

**What we need you to do:**

Please call any authorized Honda Powersports dealer and schedule an appointment to have your motorcycle repaired, for **FREE**.

If you are not the only rider of this motorcycle, please advise all other riders and passengers of this important information.

- Check recall information for your motorcycle by accessing the Honda recall lookup tool at <https://powersports.honda.com/recalls> and entering your Vehicle Identification Number (VIN).
- If you have questions or concerns, we encourage you to:
