IMPORTANT SAETY RECALL

OWNER NOTIFICATION

DATE: **11-13-2025**

NHTSA RECALL NUMBER: **25V724**

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act

Wartech Engineering, LLC has decided that a defect, which relates to motor vehicle safety, exists in certain 2022 to 2025 Special Container Trailers (Total of 18), The suspect trailers have an incorrect Schedule 40 Pipe nipple installed.

Why does my vehicle need repaired?

Incorrectly engineered ABS Assembly, incorporating a Schedule 40 pipe nipple, which should be a Schedule 80 pipe nipple. This is a connection from the ABS module to the Air tank.

Part/ System: Schedule 40 Pipe nipple on the ABS Assembly
Malfunction: Pressure leak in ABS Module and Air tank connection
Conditions: improper component, reduction in system pressure
Precaution: Replace component

Wartech Engineering LLC.

Romulus, MI 48174
(734)-429-2002

Safety Risk Explanation:

The incorrect threaded pipe fitting may have been installed between the anti-lock braking system (ABS) module and the air tank, The fitting may leak air, decreasing the pneumatic brake pressure, increasing the risk of a crash.

What is the manufacturer doing?

Remedy:

Remove and replace with a Schedule 80 pipe fitting on the remainder of 17 trailers located within the Continental US.

Free statement:

Free of charge to the owner, No charge for parts and labor,

Estimated time for repair:

The estimated repair and replacement time is six (6) hours per trailer. Wartech will work with the owner of the trailers for access to each to complete the repairs, free of charge.

What should you do?

Identify location of trailers and coordinate with Wartech Engineering for availability of the trailers access for replacing the component.

Contacting the manufacturer?
