Dear Tesla Owner,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Tesla, Inc. has decided that a defect, which relates to motor vehicle safety exists in certain model year ("MY") 2024 Cybertruck vehicles. Our records show that you are the owner of a vehicle affected by this action.

REASON FOR THIS RECALL

On affected vehicles, the service-installed optional off-road light bar accessory may have been inadvertently attached to the windshield using the incorrect surface primer. If the light bar accessory separates while the vehicle is in drive, it could create a road hazard for following motorists and increase their risk of a crash.

WHAT TESLA WILL DO

At no charge to you, Tesla will inspect the service-installed optional off-road light bar accessory for damage. If no damage is found, Tesla will remove and reattach the light bar with tape and a positive mechanical attachment. If damage is present, Tesla will replace the light bar with a new light bar adhered with tape and a positive mechanical attachment. The reattached and new light bars will not be electrically connected by Tesla service.
