IMPORTANT SAFETY RECALL

Headlights

Dear [Name],

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Stellantis Europe S.p.A. has decided that certain [2024 model year (GA) Alfa Romeo Giulia Quadrifoglio (QV)] vehicles fail to comply with Federal Motor Vehicle Safety Standard (FMVSS) No. 108 Lamps, reflective devices, and associated equipment.

It is extremely important to take steps now to repair your vehicle to ensure the safety of you and your passengers.

WHY DOES MY VEHICLE NEED REPAIRS?

The headlight wire harness on your vehicle ^[1] may be misrouted which could cause it to become damaged and disable the headlights. **Nonfunctional headlights can reduce forward visibility and cause a vehicle crash without prior warning.**

The condition above fails to comply with the requirements of FMVSS No. 571.108 S6.1.1 specifies the number of lamps and/or reflective devices for these suspect vehicles and their conformance to the performance requirements of this standard. The damaged harness may cause the headlights not to function.

HOW DO I RESOLVE THIS IMPORTANT SAFETY ISSUE?

FCA US LLC will repair your vehicle ^[2] free of charge (parts and labor). To do this, your dealer will inspect the wheel arch liner, and replace if necessary, and inspect the wire harness and re-route and/or repair if necessary. The estimated repair time is between 30 minutes for inspection and up to 1 hour if wire harness repair is necessary. In addition, your dealer will require your vehicle for proper check-in, preparation, and check-out during your visit, which require more time. Your time is important to us, so we recommend that you schedule a service appointment to minimize your inconvenience. Ask your dealer for alternate transportation options while your vehicle is in service. Please bring this letter with you to your dealership.
