**Subject:** Loose Battery Cable Connections 25V875

Sarah:

This letter is to inform you that Autocar, LLC ("Autocar") will not be publishing any dealer, distributor, or owner notifications in connection with the safety recall no. 25V875.

On December 17, 2025, Autocar submitted its initial Part 573 Safety Recall Report stating that it has identified one vehicle manufactured with loose battery cable connections. Since the filing of the Part 573 report, Autocar corrected this vehicle and confirmed on February 4, 2026 prior to the publication of a dealer, distributor, or owner notification, that all vehicles were either repaired by securing or replacing the battery cable connections. Thus, Autocar will not publish any notifications to dealers, distributors, or owners in connection with the safety recall no. 25V875.

Please contact me if you have any questions.
