NHTSA Recall No. 25V903

This notice applies to your vehicle, VIN

Dear Lamborghini Owner or Lessee,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Automobili Lamborghini S.p.A. has decided that certain Model Year 2019 to 2024 Urus vehicles fail to conform to Federal Motor Vehicle Safety Standard No. 111, "Rear Visibility." Our records indicate that you are the owner of a vehicle in this recall.

What is the issue?

In the affected vehicles, a combination of electrical noise, diminished shielding integrity, timing, and insufficient software robustness may cause a software error that deactivates the Top View System operation, preventing the rearview camera image from displaying. A rearview camera image that does not display reduces the driver's view behind the vehicle, **increasing the risk of a crash.**

For the reason set forth above, it is therefore necessary to update these vehicles. If you are not the only driver of this vehicle, please advise all other drivers and passengers of this important information.

What will Lamborghini do?

Affected vehicles will have the Top View System software updated with improved management performance, free of charge. The operation will take approximately 6 hours. Please understand if the measure may take a longer period of time for organizational reasons in the operational process. We apologize for any inconvenience this recall may cause.

What Do You Need to Do?

The remedy is now available, so please contact your authorized Lamborghini dealer without delay to schedule this recall work. Please bring this letter and your Service Booklet with you when you visit the dealer, so that we can make all necessary entries. Until the time the recall has been completed, customers are advised to be extra vigilant when operating the vehicle.
