A. RECALL RP1057 DESCRIPTION

Polestar Automotive USA on behalf of Polestar Performance AB, have decided to launch Recall RP1057 on model year 2025 Polestar 3 vehicles.

Polestar has identified that the center display does not show the rearview camera image by default each time the gear selector is placed in reverse.

As a result, failure to display the rearview image will reduce the driver's visibility, increasing the risk of a crash.

To remedy the affected vehicles, Polestar will release a software update. **Only a retailed car is eligible for claiming Total Upgrade in the QB.** If the vehicle is not retailed a PDS SW upgrade shall be performed instead.

A total of 3,664 U.S. and 287 Canadian vehicles are affected by this recall.
