## SAFETY RECALL CAMPAIGN

### DOOR BELT OUTSIDE WEATHERSTRIP REPLACEMENT (SC347)

SUBJECT:

This bulletin provides information to replace the door beltline weatherstrip molding on certain 2023-2025MY Telluride (ON) vehicles produced from October 3, 2022 through September 18, 2024. Due to a supplier quality issue, the door belt molding face plate(s) on the subject vehicles may progressively delaminate and become loose from the base of the molding. If the vehicle continues to be driven in this condition, the face plate may eventually fall off. A face plate that detaches from the vehicle while in motion may create a road hazard for other road users, increasing the risk of a crash. Follow the procedure outlined in this publication to replace the required door belt molding by referring to the VIN replacement table on page 2 on the applicable vehicle. Before conducting the procedure, verify that the vehicle is included in the list of affected VINs.

#### NOTICE

**There is no charge to the vehicle owner for this repair. Under applicable law, you may not sell or otherwise deliver any affected vehicle until it has been repaired pursuant to the procedures set forth in this bulletin.**

**Repair status for a VIN is provided on KDealer+ (Service → Warranty Coverage → Warranty Coverage Inquiry → Campaign Information). Not completed Recall / Service Action reports are available on KDealer+ (Consumer Affairs → Not Completed Recall → Recall VIN → Select Report), which includes a list of affected vehicles.**
