

Hi <<Name>>,

We have decided that a defect which relates to motor vehicle safety exists in certain model year 2022-2025 Rivian R1S and R1T vehicles and have initiated a voluntary recall that affects your vehicle.

This notice applies to your vehicle,
VIN XXXXXXXXXXXXXXXXXXXX

What is the problem?

Rivian has determined that on certain R1T and R1S vehicles, an anchorage for the front driver and/or passenger seat belt may not have been properly installed during the vehicle manufacturing process. An improperly secured seat belt anchor may not adequately restrain the seat occupant during a crash, increasing the risk of injury. To date, Rivian is not aware of any crashes, injuries, or fatalities related to this condition.

What will Rivian do?

Rivian will inspect and, as necessary, properly secure the seat belt assembly anchorage in the affected vehicles free of charge.

What should you do?

Please call 1-855-748-4265 to schedule the recall service repair with your Rivian Service Center at your earliest convenience. The estimated recall service time should take about an hour to complete, please plan accordingly.

If you have further questions, please call Rivian Service Support at 1-855-748-4265. We are available 24/7/365. Additional information will also be posted at [NHTSA.gov/recalls](https://www.nhtsa.gov/recalls).

Thank you for your attention to this important matter.
