[redacted],

Please find the statement below related to the A7C campaign for your internal legal team's review. Let me know if you have questions. Thanks!

Statement: Jeep Wrangler Loss of Motive Power – Interim Remedy
FCA US LLC issued a voluntary safety recall last year for certain model-year 2023-2025 Jeep® Wrangler 4xe plug-in hybrid electric vehicles to address a condition that may result in a loss of motive power.

An interim remedy was implemented on affected vehicles to temporarily limit certain communications between the telematics box module and hybrid control processor, preventing a subsequent loss of motive power and eliminating any associated safety risk while the final remedy is developed. All vehicles included in the recall have received the interim remedy.

The final remedy is being designed to restore normal communication between these vehicle modules and will be announced in accordance with regulatory requirements.

Thanks,
