Recall notice issued to:

Vehicle information:

2022 RAM 1500 SLT QUAD CAB 4X4

Recall information: 14C/NHTSA 25V-765

Visit recalls.mopar.com for more information or call the FCA US Recall Team at [1-800-853-1403](tel:1-800-853-1403)

Details of the Recall

The Steering Column Control Module (SCCM) on your vehicle may have been built with an insufficient weld between an internal flexible flat cable (FFC) and busbar, which can illuminate the airbag warning light and stop a deployment signal from the Occupant Restraint Controller from reaching the driver airbag module, preventing airbag deployment when directed. An airbag that does not deploy when intended may result in increased risk of injury to the driver in certain crashes.

FCA US LLC will repair your vehicle free of charge (parts and labor). To do this, your dealer will replace the SCCM. The estimated repair time is 45 minutes. In addition, your dealer will require your vehicle for proper check-in, preparation, and check-out during your visit, which may require more time. Your time is important to us, so we recommend that you schedule a service appointment to minimize your inconvenience. Ask your dealer for alternate transportation options while your vehicle is in service.

How do I schedule my **FREE** repair?

- ◆ Simply contact your Chrysler, Dodge, Jeep®, RAM dealer right away to schedule a service appointment.

We apologize for any inconvenience, but are sincerely concerned about your safety. Thank you for your attention to this important matter.
