Subject: ELECTRIC VEHICLE POWER DISTRIBUTION MODULE

This notice is sent to you in accordance with the requirements of the *National Traffic and Motor Vehicle Safety Act*.

Daimler Truck North America LLC (DTNA), on behalf of its Freightliner Trucks Division, has decided that a defect, which relates to motor vehicle safety, exists in certain model years 2020-2026 Freightliner eCascadia and eM2 vehicles manufactured August 11, 2020, through January 16, 2025. See below for additional detail on vehicle applicability:

Make	Model	Model Yr. Start	Model Yr. End	Prod. Start Date	Prod. End Date
Freightliner	eCascadia	2020	2025	August 11, 2020	January 13, 2025
Freightliner	eM2	2022	2026	April 12, 2021	January 16, 2025

The Electric Vehicle Power Distribution Module (EVDM) connector plate assembly may detach from the housing, causing one or more pins to disconnect from EVDM. Depending on the pin(s) that disconnect, the vehicle could lose drive power without warning, increasing the risk of a crash.
