This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Nova Bus (US) Inc. has decided that a defect which relates to motor vehicle safety exists in certain Nova Bus model LFS and Model Years 2022 to 2023 manufactured from March 2022 to August 2023 equipped with a wire harness assembly.

The affected vehicles may have been manufactured with a wire harness assembly of inadequate length. This defect results in excessive tension within the cables, which can lead to wires being pulled out of their connector sockets. Additionally, the compromised assembly may allow water to infiltrate the connectors, exacerbating the issue. Over time, these conditions can cause a loss of critical signals necessary for vehicle operation, potentially leading to a loss of motive power. A loss of motive power may increase the risk of a crash.

The service document explaining the measures to be taken to remedy the affected vehicles will be published on Nova Bus web site <https://us.novabus.com/customer-portal/>. However, the corrective measure is not yet finalized. We will notify you again when the remedy is ready. Nova Bus (US) Inc. will cover the parts and labour costs of the repair according to the warranty claim policies in effect. Federal law requires that you forward a copy of this safety recall notice to the lessee within 10 days.
