IMPORTANT SAFETY RECALL (INTERIM NOTICE)

This notice applies to your vehicle - [REDACTED]

SAFETY RECALL NOTIFICATION – C10135 – Headlight Sockets NHTSA SAFETY RECALL – 25V215

Dear Mitsubishi Fuso Truck Owner:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Mitsubishi Fuso Truck of America, Inc. has decided that a defect, which relates to motor vehicle safety, exists in the headlight sockets on certain 2024 Model Year FEC7K and FEC9K RIZON trucks. The purpose of this letter is to explain what the recall is about and to keep you informed of MFTA's implementation plan. We are currently making preparations to implement the Safety Recall remedy. We will send you another notification when the remedy is available

What is the problem?

Certain affected vehicles equipped with turn signals integrated into the headlights were produced using defective bulb sockets. As a result, there is a risk that the flasher bulb contacts of the turn signals will burn or melt due to vibrations while driving, causing the turn signals at the front of the vehicle to not light up. In the worst case, if the turn signal stops working. Trucks stop being able to signal direction when taking turns. Possibly leading to accidents caused by communication errors, increasing the risk of a crash.

What should you do in the interim?

We appreciate your patience while we prepare the remedy. In the meantime, if a turn signal stops working, make an appointment with your authorized Mitsubishi Fuso dealer as soon as possible to have the headlight socket inspected and repaired.

Continued on the back.
