

2025 Rivian R1S & R1T
R1 Turn Signal Inoperative

NHTSA Recall No. 25V-387
Rivian Recall No. FSAM-1693

IMPORTANT SAFETY RECALL

This notice applies to your vehicle, VIN XXXXXXXXXXXXXXXXXXXX

Dear <FirstName LastName,>

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Rivian Automotive, LLC has decided that certain model year 2025 Rivian R1S and R1T vehicles fail to conform to Federal Motor Vehicle Safety Standard (FMVSS) 108 – “Lamps, reflective devices, and assoc. equipment.” Our records show that you are the owner of a vehicle affected by this action.

What is the problem?

One or both front turn signal lamps may not illuminate and flash due to issues during manufacturing from a supplier, and, therefore, may not fulfill the requirements of FMVSS 108. Diminished front turn signal lamp performance may cause reduced awareness of the vehicle’s intent to turn for road users in front of the vehicle. Reduced awareness of intent to turn may increase the risk of a crash.

What will Rivian do?

Rivian is working as quickly as possible to prepare the remedy plan to address this condition. We will send you another letter via first-class mail once repairs can begin. The recall service will be available at no cost to you.

What should you do?

You will be notified when the remedy becomes available. At that time, you will be able to schedule this repair with your Rivian Service Center. Information about this recall and the status of the remedy plan is listed on our website. <https://rivian.com/support/article/recall-information>
