

## IMPORTANT SAFETY RECALL

### 2025MY CX-50 – Shift Interlock Inoperative and ECU Configuration Errors Safety and Emissions Recall 7725F - NHTSA Campaign Number 25V-418

August 2025

This notice applies to your vehicle: VIN \_\_\_\_\_

Dear Mazda Owner:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Mazda Motor Corporation has decided that a defect relates to motor vehicle safety exists in certain 2025MY CX-50 vehicles produced from February 26, 2025 through February 27, 2025. If you received this notice, your vehicle is included in this recall.

#### What is the problem?

During the repair and inspection process at Mazda Toyota Manufacturing (MTM), certain steps were missed, leading to the following concerns. The subject vehicles may be affected by one or both of these concerns. The specific concerns vary depending on the vehicle.

- Certain subject vehicles might have been shipped in factory mode. If the accelerator is applied while the shifter is in Neutral and then unintentionally shifted into Drive, the vehicle may accelerate or move unexpectedly, increasing the risk of a crash.
- On certain subject vehicles, incorrect VIN information, different from the actual vehicle's VIN, was mistakenly registered in multiple ECUs (Electronic Control Unit), which could result in non-compliance with CARB OBD-II Regulation S1968.2.

#### What will Mazda do?

Repair parts are not currently available. It is expected that the parts will become available in late summer 2025 or earlier. You will receive another letter once the parts are available to repair your vehicle with instructions on making an appointment at your nearest Mazda dealer. If any warning lights appear in your instrument cluster, please take your vehicle to any Mazda dealer immediately for an inspection.

**Emission Law Information:** To ensure your full protection under the emission warranty made applicable to your vehicle by State or Federal Law, it is recommended you have your vehicle or engine serviced as soon as possible. Failure to do so could be determined as lack of proper maintenance of your vehicle. Also, your vehicle may fail a state or local emission inspection if this recall is not completed.

**Important notice to owners registering vehicles in California and Massachusetts:** California Department of Motor Vehicles and the Commonwealth of Massachusetts, in conjunction with the California Air Resources Board and the Environmental Protection Agency for the State of Massachusetts, have implemented the Registration Renewal/Recall Tie-In Program, which requires the completion of Emission Recalls prior to registration renewal. Mazda dealers will provide a Vehicle Emission Recall - Proof of Correction Certificate upon completion of the recall. Be sure to keep the proof of correction certificate provided by the Mazda Dealer until needed for the registration renewal process.

**Where is the closest Mazda dealer?**
