Vehicles Affected: 2021-2025MY Land Rover Range Rover Evoque

National Highway Traffic Safety Administration (NHTSA) Recall Number: 25V-454

Dear Range Rover Evoque Owner:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Land Rover has decided that a defect which relates to motor vehicle safety exists in certain 2021-2025MY Land Rover Range Rover Evoque vehicles.

Your vehicle is included in this Recall action.

What is the reason for this program?

During a passenger airbag deployment, the airbag may tear as a result of improper folding of the airbag during the airbag assembly process.

A torn airbag may not adequately protect an occupant in a crash, increasing the risk of injury. Additionally, a torn airbag may allow the escape of hot gases which can cause burns to occupants.

What are the warning signs of this condition?

This concern is invisible to the customer until airbag deployment.

Are there any precautions that may be taken to minimize the safety risk until the corrective measures are implemented?

Until such time as the recall has been completed, customers are advised to be extra vigilant when operating the vehicle and ensure all vehicle occupants are properly restrained with seatbelts.

What will Land Rover and your authorized Land Rover Retailer do?
