25V-636	BMW Safety Recall 25V-636: Engine Starter	<p>It is possible for water to contact and enter the engine starter. The engine starter relay may corrode, causing the relay to overheat and short circuit, increasing the risk of a fire even when the vehicle is parked and the ignition is off.</p> <p>As a precaution, owners are advised to park their vehicles outside and away from structures until the remedy has been performed.</p> <p>If you notice smoke from the engine compartment, your vehicle may be experiencing this issue. Do not continue to drive the vehicle. All occupants should exit the vehicle and move to a safe location away from traffic. Dial 911 in the event of an emergency. If it is not an emergency, contact BMW Roadside Assistance at 1-800-332-4269.</p>	<p>Important BMW Safety Recall 25V-636: Engine Starter. Contact an authorized BMW center immediately to get your vehicle repaired for FREE.</p>
