Subject: Rearview Camera Image May Not Display/FMVSS 111

Dear Tom Single:

This letter serves to acknowledge Ford Motor Company's notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

Brand/Model/Part Number:
FORD SERVICE PARTS/10.1 INCH CENTER STACK

Mfr's Report Date: September 22, 2026

NHTSA Campaign Number: 26E065

Components:
BACK OVER PREVENTION:DISPLAY FUNCTION
EQUIPMENT:ELECTRICAL:INFOTAINMENT

Potential Number of Units Affected: 46

Problem Description:
Ford Motor Company (Ford) is recalling certain 10.1-inch center stack screens installed in 2024-2026 Ranger vehicles during service. The screen may lose power and fail to display the rearview camera image. As such, these vehicles fail to comply with the requirements of Federal Motor Vehicle Safety Standard number 111, "Rear Visibility."

Consequence:
A rearview camera image that does not display reduces the driver's view behind the vehicle, increasing the risk of a crash.

Remedy:

The remedy is currently under development. Interim letters notifying owners of the safety risk are expected to be mailed October 5, 2026. Additional letters will be sent when the remedy is available. Owners may contact Ford customer service at 1-866-436-7332. Ford's number for this recall is 26C42. Vehicle Identification Numbers (VINs) involved in this recall became searchable on NHTSA.gov on September 25, 2026.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-888-275-9171), or go to www.nhtsa.gov.

Please ensure the following requirements are met:
