Subject: Incorrectly Installed Driveshaft

Dear Derek Latta:

This letter serves to acknowledge Nissan North America, Inc.'s notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

Makes/Models/Model Years:
NISSAN/SENTRA/2025

Mfr's Report Date: June 26, 2026

NHTSA Campaign Number: 26V410

Components:
POWER TRAIN:DRIVELINE:DRIVESHAFT

Potential Number of Units Affected: 946

Problem Description:

Nissan North America, Inc. (Nissan) is recalling certain 2025 Nissan Sentra vehicles. The front left-side driveshaft may not be fully seated in the continuously variable transmission (CVT) assembly, which can cause a transmission fluid leak and loss of drive power.

Consequence:

An unexpected loss of drive power can increase the risk of a crash. In addition, a driveshaft that is not fully engaged can result in a vehicle rollaway if the parking brake is not applied, increasing the risk of a crash or injury.

Remedy:

Dealers will inspect the front left driveshaft, and if necessary, replace the driveshaft and CVT assembly, free of charge. Owner notification letters are expected to be mailed August 5, 2026. Owners may contact Nissan customer service at 1-800-867-7669. Nissan's number for this recall is PMA68. Vehicle Identification Numbers (VINs) involved in this recall became searchable on NHTSA.gov on June 30, 2026.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-888-275-9171), or go to www.nhtsa.gov.

You are required to submit a draft owner notification letter to this office no less than five days prior to mailing it to the customers. Also, copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect. This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.

As stated in 49 U.S.C. § 30118(f), submission of eight consecutive quarterly reports followed by three annual reports is required. As described in 573.7, submission of the first of eight consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter. The first of three consecutive annual status reports will be due on, or before, 1 year after the eighth quarterly report was submitted.

Nissan North America, Inc.'s contact for this recall will be Debora Crews who may be reached by email at debora.crews@dot.gov. We look forward to working with you.

Sincerely,

Alex Ansley
