Subject: Incorrect Load Carrying Capacity on Label/FMVSS 110

Dear Brad Wyatt:

This letter serves to acknowledge Toyota Motor Engineering & Manufacturing's notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

Makes/Models/Model Years:

TOYOTA/TUNDRA/2025
TOYOTA/TUNDRA HYBRID/2025
TOYOTA/TACOMA HYBRID/2024
TOYOTA/4RUNNER/2026
TOYOTA/4RUNNER I-FORCE MAX HYBRID/2026
TOYOTA/RAV4 HYBRID/2026

Mfr's Report Date: September 02, 2026

NHTSA Campaign Number: 26V571

Components:

EQUIPMENT:OTHER:LABELS

Potential Number of Units Affected: 135

Problem Description:

Toyota Motor Engineering & Manufacturing (Toyota) is recalling certain 2024 Toyota Tacoma Hybrid, 2025 Tundra Hybrid, Tundra, 2026 RAV4 Hybrid, 4Runner i-Force Max Hybrid, and 4Runner vehicles. The load carrying capacity modification label may display inaccurate added weight values. As such, these vehicles fail to comply with the requirements of Federal Motor Vehicle Safety Standard number 110, "Tire Selection and Rims."

Consequence:

A vehicle with an incorrect maximum capacity weight value may be overloaded, increasing the risk of a crash.

Remedy:

Dealers will replace the load carrying capacity modification label, free of charge. Owner notification letters are expected to be mailed October 18, 2026. Owners may contact Toyota's customer service at 1-800-331-4331. Toyota's number for this recall is 26TA18.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-888-275-9171), or go to www.nhtsa.gov.

You are required to submit a draft owner notification letter to this office no less than five days prior to mailing it to the customers. Also, copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Under 49 U.S.C. § 30112(a), it is illegal for anyone, including a manufacturer, distributor, dealer, or retailer to sell an item of equipment or vehicle that fails to comply with all applicable Federal motor vehicle safety standards.

As stated in 49 U.S.C. § 30118(f), submission of eight consecutive quarterly reports followed by three annual reports is required. As described in 573.7, submission of the first of eight consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter. The first of three consecutive annual status reports will be due on, or before, 1 year after the eighth quarterly report was submitted.

Toyota Motor Engineering & Manufacturing's contact for this recall will be Debora Crews who may be reached by email at debora.crews@dot.gov. We look forward to working with you.

Sincerely,

Alex Ansley
